

D1 Cordless LED 1 Second Curing Curing Light. 2600 mw/cm3

D1 ONE
BROADBAND LED CURING LIGHT

D1 is the next generation in premium curing lights. It combines market-leading engineering with unique design advancements that enhance performance and deliver consistent cures. The D1 generates light intensity of 3,000 mW/cm² ensures fast thorough curing in as little as 1 second. The high power mode also provides effective curing of light cured cements through indirect restorations.

4 EFFECTIVE CURING MODES

- PLASMA EMULATION
- HIGH POWER
- GLASS IONOMER
- BLEACHING

D1 ONE
BROADBAND LED CURING LIGHT

D1 is the next generation in premium curing lights. It combines market-leading engineering with unique design advancements that enhance performance and deliver consistent cures. The D1 generates light intensity of 3,000 mW/cm² ensures fast thorough curing in as little as 1 second. The high power mode also provides effective curing of light cured cements through indirect restorations.

4 EFFECTIVE CURING MODES

- PLASMA EMULATION
- HIGH POWER
- GLASS IONOMER

features

- Maximum light intensity of 3,000 mw/cm².
- D1 emits a very wide spectrum of light: 395 - 480 nm.
- D1 offers 4 versatile curing modes :
 - Plasma Emulation
 - High Power
 - Glass Ionomer
 - Bleaching
- High quality 5 light emitting diodes work simultaneously to ensure that every D1 generates consistent power output.
- Every light-cured material can be cured instantly and mostly in a few seconds.
- Light weight and ergonomic design offers maximum portability and efficiency.
- D1's body is made from industrial-grade aluminum which ensures its durability and excellent heat dissipation.
