Description

Focused LED Curing Light. High Power, Fast 3 Second Cure. 360 Degree Swivel Head.

Amazing Light for Everyday Practice

FUSION 5 is the best curing light for its high performance and dependability:

Impressive performance

Ultrafast 3 second cures

4000 mW/cm² uniform intensity across 10mm curing tip

Unique, patented optics deliver a laser-like curing beam with minimum dispersion:

2300mW/cm² at 10mm distance away from the tip quadrupling the power of other lights

Distinctive design

Ergonomic, intuitive and easy to use.

Low profile tip with 90° angle for east access

Solid aircraft aluminum construction with drop proof dependability

Seamless integration with backlit intuitive LCD interface

Superb conversion efficiency with minimum heat generation

360 degree swivel head for easy access to full oral cavity

Bonding multiple restorations, crowns/veneers, and brackets in one click.

Flexibility at its finest – not just a curing light, but a versatile multi-purpose light with more functions than before:

Built-in oral screening program for oral cancer screening

Built-in caries detection upgradability

For the most powerful and dependable curing light, FUSION5 is your choice.
