(0.25g x 20) = 5g

DENTAL ADVISOR ++++½ 91%

Indications
- Class I, II, V of posterior teeth.
- Class III, IV, V of anterior teeth and cervical cavities (wedge shaped defect) involving root surfaces.

DENTOTEMP - *Long-Term Temporary Cementation - 8 months or Permanent Cementation of Implants Retained Crowns & Bridges*

R999
norm: R1199

Long term temporary cement | Automix
* High bonding strength | Gingival friendly
* Complete removal with temporary crown
* **No clean up required**

6g syringe

Indications
- Temporary sealing on natural, non-reconstituted teeth (composite, core).
- Temporary sealing for cosmetic elements such as veneers or onlays.
- Permanent sealing for crowns and bridges on implants with possibility of removing restorations.

DentoCore body

2 in 1 Core Build up & Post Cementation

Real time saver | Nano tech,
Highly stackable | Fluoride release
High radiopacity

Key Points

Solid support for final reconstruction
- High degree of polymerisation - PHB technology (Hyperbranched
- Multi-Methacrylate Polymers) and nanoparticles
- Limited shrinkage

Convenient to use
- Consistent, homogeneous mix for controlled application and distribution
- Dual cure

R849
norm: R999

9g syringe

Indication
A dual-cure, fluoride releasing, resin composite material designed for the fabrication of core build-ups.

World's 1st X-Ray with Sensor Positioning

Only 1 Shot Perfection X-ray Image in Just 10s

WOW OFFER
BUY BOTH
Hyperlight + Nano Pix M
For
R49,900

Beam Centered
Green = Ready

- High Precision X-ray
- 70Kv Tube Voltage
- 0.4mm Focal Spot
  High Resolution Image

Beam Not Centered
Red = Not Ready

Eliminates the Following

- Retakes
- Sensor Holder
- Excessive Radiation
- Wasted Time

Eighteeth NanoPix

Precise Positioning, Single Shot Capture
Real-time feedback on sensor position enables accurate intraoral exposure, achieving 99.8% success rate.

Smart Angle Feedback, No Holder Required
Real-time angle view display, with auto-lock on the optimal exposure angle to eliminate imaging distortion.

Distance Monitoring, Avoid Underexposure
Continuously monitors the distance between the sensor and X-ray to prevent overextended exposure distance.
